Powered Pallet Truck

With a load capacity of 5000kg @ 700mm the Powered Pallet Truck (Combi-PPT) can work in the smallest operating aisles.

Superior safety with Combilift's patented Multi-Position Tiller Arm

The tiller can be turned to the left or right to allow the operator to remain at the side. This enables full visibility of the load and forks, while maintaining full steering control, providing greater awareness of the surroundings for enhanced overall safety.

Standing to the side of the truck eliminates the risk of being trapped or crushed while allowing the Combi - PPT to operate in very narrow aisles.

Features Include:

- Power Steering
- AC Motor Technology
- Rear Wheel Drive
- Patented Multi-Position Tiller Arm

Combilift has a policy of continuous product development and reserves the right to alter specifications without prior notice. Specifications and/or dimensions may vary from those illustrated in some countries.
